

Get to the cloud **=FAST!**

Solving the challenges of cloud computing is easy when you have world-leading connectivity services at your fingertips. Megaport's Software Defined Network gives the power of on-demand, fast, and flexible connectivity to build effective cloud architectures tailored for your business.

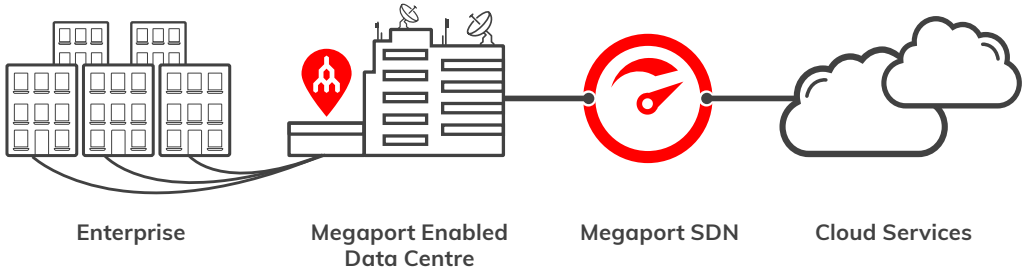

Cloud connectivity  Hybrid cloud  Multicloud  Cloud-to-Cloud

Connectivity simplified.

Megaport is the highly scaled Network as a Service (NaaS) organisation utilising 100 Gbps technology to deliver dedicated access to cloud services. The Company's Software Defined Network (SDN) enables the interconnection of enterprises and service providers across hundreds of data centre locations around the globe. Fast, flexible, and dynamic, Megaport's connectivity solution is transforming the way businesses reach leading cloud services from Microsoft, Google, Oracle, Amazon Web Services, IBM, SAP, Nutanix, Salesforce, and Alibaba.

- Greater network and business agility
- Reduced operating costs
- Increased speed to market

See the latest Megaport locations at megaport.com/locations

With an extensive footprint throughout North America, Asia Pacific, and Europe, customers can access the Network in hundreds of locations and growing.

Our world-leading cloud and network connectivity solutions drive greater agility, reduced operating costs, and increased speed to market compared to traditional connectivity options.

Come and be part of the network changing the way we connect, try it at portal.megaport.com
